A single digit makes all the difference in the world here, as this is a fully colored printer. Ergo, the HP printer not printing black won't be the end of the world. Contrary to what the HP Officejet Pro 8610 manual will tell you, remanufactured ink is a good option here as the model is still seeing a lot of use and probably will for some years to come. Unlike its colorless brother, the 8610 is available to sign up for the HP Instant Ink program. That being said, you'll have to check with the manufacturer to see whether you can still get instant refills, what with the model being discontinued and all. You can get it in digital format here, because really, who's using paper manuals anymore. http://advcontato.com/zeturin/www/admin/mod_galeria_eventos/arquivos/empire-mv-145-manual.xml
